If, however, a participant is in arrears with the performance of any obligations towards KDPW_CCP arising from its participation in the OTC clearing system or in a separate clearing system operated by KDPW_CCP for transactions executed in organised trading, KDPW_CCP may credit it towards such obligations instead of transferring it to the participant.

2. A variation margin shall be calculated in the currency in which the transaction is cleared according to the content of the clearing instruction.
3. Interest on a variation margin shall be calculated according to the rules laid down in the Detailed Rules of the OTC Clearing System.

2. In order to modify the terms referred to in subpara. 1, the clearing member shall deliver to KDPW_CCP, within the time limit set in the Detailed Rules of the OTC Clearing System, an instruction according to a template defined by KDPW_CCP.

Assets of the transaction clearing liquidity guarantee system shall be understood as all assets which according to the applicable legal regulations and the provisions of the rules may be used to meet liabilities in respect of participation in the OTC clearing system.

3. In case of the need to take actions set out in this Section, KDPW_CCP shall notify the defaulting participant of such actions being taken through the SWI system or, if this is not possible, in any form.

§ 76

- 1 A clearing member shall be obliged to take necessary actions to prevent suspension of transaction settlement. In particular, a clearing member shall ensure the immediate acquisition of securities concerned by a repo transaction or sale transaction in order to prevent the suspension of their settlement owing to a shortage of such securities or the fastest possible elimination of such suspension. Such actions may involve the conclusion of framework securities lending agreements on the basis of which the participant will be able immediately to take out a securities loan for the outstanding securities, unless it is possible to prevent suspension of transaction settlement otherwise.
2. A clearing member shall be responsible for suspension of settlement of a transaction to which it is a clearing counterparty due to circumstances which have arisen on its side or on the side of its settlement agent or its payment agent through which it settles transactions or whom it uses in such settlement if due to such circumstances the entity which operates the settlement system has taken the action referred to in Art. 45f subpara. 1 of the Act on trading in financial instruments. At the instant of receipt from the settlement system of information which suggests that such obligations have not been met timely and the entity which operates the settlement system has taken the action referred to in Art. 45f subpara. 1 of the Act on trading in financial instruments, KDPW_CCP shall identify suspension of transaction settlement due to the circumstances for which such participant is responsible. Such participant shall be obliged to take immediate actions in order to eliminate the suspension of transaction suspension as soon as possible.
3. The participant referred to in subpara. 2 shall be liable to KDPW_CCP for any loss caused in connection with the suspension of transaction settlement. In the event that such loss is repaired using assets of the OTC guarantee fund, KDPW_CCP shall be authorised to claim their reimbursement and any assets received under such claims shall become a part of the assets of the fund.

4. If the settlement of transactions for which the participant holds the status of clearing member is performed using a settlement agent or payment agent, actions taken to ensure that transaction settlement is not suspended or to eliminate suspension of such settlement, described in subpara. 1 and 2, shall be performed by the participant through such settlement agent or such payment agent.

§ 77

1. In case of a lack of coverage in the bank account designated by the clearing member, that member shall immediately take actions to restore the ability to perform its cash obligations arising from the clearing of transactions by ensuring coverage in the relevant bank account.

2. A clearing member shall immediately notify KDPW_CCP of the effect of taken actions referred to in subpara. 1.

3. Until the receipt of reliable information from the participant, suggesting the ability of performing its obligations, KDPW_CCP shall be entitled to:

1/ refrain from sending, respectively, a settlement instruction, a settlement order or a transfer order concerning obligations of KDPW_CCP towards the participant referred to in subpara. 1 arising from transactions created as a result of novation,

2/ cancel, respectively, a settlement instruction, a settlement order or a transfer order referred to in point 1, if they have been sent previously.

§ 78

1. Subject to the second sentence of subpara. 3 and subject to subpara. 4 and 5a, the market value of securities traded in the organised market, posted as margins or as contributions to the OTC guarantee fund, shall be calculated according to the following principles:

1/ the market value of securities traded only on one organised market shall be calculated at their price on that market taken as the reference price,

2/ if no price taken as their reference price was determined on the organised market of trading in securities referred to in point 1 on a given day, their market value shall be calculated at the last such price before that day,

3/ the market value of securities traded on more than one organised market shall be calculated at their price on that market, assigned a priority higher than the priorities assigned to the other markets, taken as the reference price,

4/ if no price taken as the reference price was determined on the organised market identified according to point 3 on a given day, the market value of securities referred to in point 3 shall be calculated at the last such price determined on that day on another organised market on which such securities are traded or, if such price was determined on that day on more than one market, at such price determined on the market assigned a priority higher than the priorities assigned to the other markets,

5/ if no price taken as the reference price was determined on the organised markets on which securities referred to in point 3 are traded on a given day, their market value shall be calculated at the last such price on the market on which it was determined last or, if the criterion is met by more than one organised market, at the last such price on the market assigned a priority higher than the priorities assigned to the other markets.

2. The priorities assigned to the organised markets and the prices taken as the reference price for the calculation of the market price of securities are defined in Appendix 3 to the rules.

3. The market value of securities posted as margins or as contributions to the OTC guarantee fund whose price taken as the reference price is calculated as a percentage shall be equal to their current nominal value times the price calculated according to subpara. 1 and the value of incremental interest accrued at the day of calculating their market value if the entity operating the organised market provides KDPW_CCP with information indicating such value. However, it is assumed that the market value of securities on a day other than a trading day or a session day on any organised market on which such securities are traded shall be equal to their market value determined on the last trading day or a session day on such market.

4. If on a given day, due to a change of the nominal value of securities posted as margins or as contributions to the OTC guarantee fund whose price taken as the reference price is not calculated as a percentage, the Central Securities Depository of Poland has exchanged them for securities with a new nominal value, their market value on that day shall be calculated at the price taken as the reference price according to subpara. 1 and 2, however, for the purpose of the calculation, the price shall be multiplied by a ratio where the new nominal value is the numerator and the previous nominal value is the denominator.

5. Subject to subpara. 5a, the market value of securities posted as margins or as contributions to the OTC guarantee fund which are not traded on any organised market shall be calculated as follows:

1/ the market value of Treasury bills shall be calculated according to the rules applied by the National Bank of Poland to determine the market value of Treasury bills loaned in the securities registration system operated by the National Bank of Poland and used as collateral of such loans,

2/ the market value of securities delisted on an organised market or securities whose trading on such market has been terminated for other reasons shall be calculated according to subpara. 1-4, however, if such securities were traded on more than one organised market and they were delisted on such markets on different days, their market value shall be calculated at the last price on the market on which they were last delisted, taken as the reference price,

3/ for subscription rights not covered by point 2, the market value shall be equal to zero,

4/ the market value of other securities shall be calculated, respectively, at their issue price or at their average issue price weighted by the number of securities registered from different issues in KDPW or, if no issue price can be determined, at their nominal value.

5a. The market value of securities referred to in § 79 subpara. 3 point 4 posted as margins or as contributions to the OTC guarantee fund shall be calculated according to the current market data available from services of information agencies indicated in the Detailed Rules of the OTC Clearing System or available from other sources used by the entity which operates the relevant depository system for such securities.

6. If the market value of securities posted as margins or as contributions to the OTC guarantee fund calculated according to subpara. 1-5a is expressed in a foreign currency, the value shall be calculated in the Polish currency according to the current market value of that currency determined according to the Detailed Rules of the OTC Clearing System.

6a. KDPW_CCP shall inform clearing members of the current market value of securities posted by them as margins or as contributions to the OTC guarantee fund and of the valuation of such securities performed according to the Detailed Rules of the OTC Clearing System.

7. For the purpose of application of subpara. 1-5, it is assumed that an organised market shall be a regulated market and an alternative trading system if these are operated by an entity or entities that are parties to agreements referred to in § 1 subpara. 2 concluded with KDPW_CCP and binding on

the day of calculating the market value of securities, and the electronic market in Treasury securities operated by BondSpot S.A. under an agreement with the Minister of Finance.

8. The Management Board of KDPW_CCP shall specify in the Detailed Rules of the OTC Clearing System the entity which operates the relevant depository system for securities posted as margins or contributions to the OTC guarantee fund where the market value of such securities is determined through such entity.

§ 78a

1. KDPW_CCP shall cover losses in the case of default in respect of obligations arising from transactions cleared by KDPW_CCP, which it is obliged to perform with its own assets, prior to using resources contributed to the OTC guarantee fund, excluding the contribution of the participant on whose part the event of default has occurred, with resources constituting own capital of KDPW_CCP, dedicated to that purpose according to subpara. 2, in the amount calculated according to subpara. 3 (dedicated resources).

2. KDPW_CCP shall dedicate for the purpose referred to in subpara. 1 own funds in an amount representing at least 25% of the KDPW_CCP capital requirement, subject to subpara. 3.

3. The amount of the funds referred to in subpara. 2 shall be calculated taking into account the allocation of such funds in relation to the value of the OTC guarantee fund as well as other guarantee funds and the clearing guarantee fund, managed by KDPW_CCP within another clearing system.

4. If assets constituting dedicated resources are used according to the provisions of the rules, KDPW_CCP shall immediately take actions necessary to replenish the dedicated resources up to the amount referred to in subpara. 2 within one month of the day when such resources are used.

5. KDPW_CCP shall inform clearing members:

1/ of the amount of assets constituting dedicated resources – immediately after calculating it, but at least once per year,

2/ of the allocation of assets constituting dedicated resources referred to in subpara. 3 – immediately after updating contributions to the funds referred to in subpara. 3,

3/ of any change of the amount of assets constituting dedicated resources due to their use according to the rules and of replenishing such resources up to the amount referred to in subpara. 2,

4/ of the amount of all own funds of KDPW_CCP and the amount of the KDPW_CCP capital requirement – immediately after receiving a written request of a clearing member.

6. Subject to subpara. 4 and subpara. 5 point 3, any change of the amount of assets constituting dedicated resources due to their recalculation shall require giving prior notification to clearing members.

7. KDPW_CCP shall inform clearing members of the detailed rules of calculating the KDPW_CCP capital requirement and the dedicated resources.

2/ initial deposits.

Margins referred to in points 1-2 shall cover liabilities arising from transactions and arising from non-execution or undue execution of such transactions.

2. Initial margins and initial deposits may consist of cash or securities accepted by KDPW_CCP.

2a. Cash accepted by KDPW_CCP within the meaning of subpara. 2 shall be only cash posted as margins according to the terms laid down in the provisions of this Section and the Detailed Rules of the OTC Clearing System, in the following currencies:

3/ Treasury bills, and

4/ debt securities denominated in EUR, issued by European Union Member States other than the Republic of Poland,

on condition that these have been indicated in the list of securities described in § 80 subpara. 4. When indicating securities in the list, KDPW_CCP shall take into account, without limitation, the issuer's credit risk level, the expected dispersion of ownership of such securities, the volatility of the price of such securities, and their liquidity, subject to subpara. 4.

4. KDPW_CCP may indicate securities referred to in subpara. 3 point 4 in the list of securities described in § 80 subpara. 4 provided that:

1/ the provisions of the rules to the extent of the conclusion of the agreement referred to in § 86 subpara. 1, establishment of collateral on such securities, expiration of such collateral and enforcement of such collateral by KDPW_CCP are in compliance with the applicable legal provisions referred to in § 86 subpara. 2 point 1,

2/ under the applicable legal provisions referred to in § 86 subpara. 2 point 1, KDPW_CCP shall have the priority to enforce financial collateral on such securities from the moment it is established in favour of KDPW_CCP,

3/ the applicable legal provisions referred to in § 86 subpara. 2 point 1 are in compliance with Directive 2002/47/EC of the European Parliament and of the Council of 6 June 2002 on financial collateral arrangements (Official Journal of the European Union L 168 from 2002, p. 43, as amended).

5. Each margin:

1/ shall be established on the day it is deposited and expire at the time set according to the provisions of this Section and the Detailed Rules of the OTC Clearing System, subject to § 70a and § 110b,

2/ shall constitute financial collateral referred to in Art. 1 in conjunction with Art. 5 subpara. 1 point 1 of the Law on certain financial collateral of 2 April 2004 (consolidated text: Journal of Laws from 2020, item 103), subject to § 86 subpara. 2.

6. A margin shall be deposited in cash on the terms defined in the Detailed Rules of the OTC Clearing System by means of debiting the relevant bank account designated by the clearing member according to § 23 subpara. 2 point 3 of the rules.

7. A participant depositing a margin in cash shall ensure that cash in the relevant bank account designated by it according to § 23 subpara. 2 point 3 of the rules is sufficient to perform the obligations towards KDPW_CCP thereunder including its other obligations related to participation no later than 15 minutes before the opening of the clearing session on the day following transaction

clearing.

8. If there is a shortage of cash in the bank account maintained in the clearing bank, designated by the participant according to § 23 subpara. 2 point 3 of the rules, after the lapse of the time limit referred to in subpara. 7, the amount of the initial deposit deposited by the participant shall be reduced by such shortage.

9. Collateral deposited in cash shall be returned by means of crediting the bank account from which the collateral was drawn, provided that in the case of:

1/ cash in EUR or in the Polish currency posted as an initial deposit, and

2/ cash in EUR posted as an initial margin,

they shall be returned on the basis of a cash return instruction submitted by the participant by means of crediting the bank account designated according to § 23 subpara. 2 point 3 of the rules.

10. Margins shall be calculated by KDPW_CCP in the Polish currency. The detailed rules of calculating margins are set out in the Detailed Rules of the OTC Clearing System.

§ 80

1. The value of securities and cash in EUR that form a margin shall be equal to their market value less the market value multiplied by the haircut, published by KDPW_CCP.

2. The value of the haircut shall be updated daily by KDPW_CCP, on the days when KDPW_CCP performs the clearing of transactions. Changes to the value of the haircut performed as part of the update shall also have a bearing on securities posted as margins prior to the update.

3. KDPW_CCP may update on an on-going basis the value of securities and cash in EUR which constitute a margin and the haircut rate. KDPW_CCP shall immediately notify the relevant clearing members of the effect of an update to the securities they have posted as margins.

4. The list of securities that may form margins, including their corresponding haircuts, shall be provided to participants for information purposes in the form of a resolution by the KDPW_CCP Management Board.

5. Haircuts for specific securities may be set at 100% level.

6. Where a margin comprises securities referred to in § 79 subpara. 3 point 4, the value of such securities, referred to in subpara. 1, may be calculated and updated through an entity which operates the relevant depository system for such securities, referred to in § 78 subpara. 8, taking into account the haircut rate assigned to such securities, published by KDPW_CCP. KDPW_CCP may outsource the activities referred to in the preceding sentence to such entity provided that such outsourcing is legal and does not jeopardise the safety of trading, in particular KDPW_CCP shall remain fully liable for non-performance or undue performance of such activities.

§ 81

1. The value of Treasury bonds shall cease to be recognised to any degree when calculating the value of margins starting on the second day prior to the record date used to determine those entitled to receive payments following the redemption of such bonds.

2. The value of Treasury bills shall cease to be recognised to any degree when calculating the value of margins starting on the second day prior to the redemption of such bills.

2a. The provisions of subpara. 1 shall apply to securities referred to in § 79 subpara. 3 point 4 provided that subpara. 2 shall apply accordingly where the persons eligible to receive entitlements in respect of redemption are identified on the redemption date of such securities.

3. The value of shares shall cease to be recognised to any degree when calculating the value of margins starting on the day that the issuing company ceases to become a constituent member of the WIG20 stock exchange index.
4. The value of securities issued by a clearing member or by an entity of the participant's group of companies, within the meaning of Article 3 subpara. 1 point 44 of the Accountancy Act of 29 September 1994 (consolidated text: Journal of Laws from 2019, item 351, as amended), or securities for which the participant or such entity has granted a guarantee or surety to perform obligations arising thereunder shall not be recognised to any degree when calculating the value of margins posted by the participant. If a merger, split or take-over of the participant or another entity which has issued securities posted by the participant as margins or the acquisition of a significant block of shares of the participant or such entity or another event causes an effect through which securities become securities issued by the participant that has posted them as margins or by an entity of the participant's group of companies, within the meaning of Article 3 subpara. 1 point 44 of the Accountancy Act of 29 September 1994, the value of such securities shall cease to be recognised to any degree when calculating the value of posted margins as of the second day after it comes to the attention of KDPW_CCP.
5. In the event referred to in the second sentence of subpara. 4, KDPW_CCP may cease to recognise to any degree the value of securities posted by the participant before the event as a result of which such securities become securities issued by the participant that has posted them as margins or by an entity of the participant's group of companies, within the meaning of Article 3 subpara. 1 point 44 of the Accountancy Act of 29 September 1994, provided that it has previously informed the participant thereof and indicated the time limit as of which such effect occurs, which shall be not less than two days.
6. A clearing member shall be obliged to notify KDPW_CCP immediately of any obstacles in determining the value of margins posted by the participant, referred to in subpara. 4.
7. In the event that securities have been issued by:
 - 1/ an entity of KDPW_CCP's group of companies, within the meaning of Article 3 subpara. 1 point 44 of the Accountancy Act of 29 September 1994, or
 - 2/ another entity which provides to KDPW_CCP services which have a significant impact on the activity of KDPW_CCP, other than services provided by the National Bank of Poland,the value of such securities shall not be included in the calculation of margins posted by the participant. The provisions of subpara. 4 and 5 shall apply accordingly.
8. The provisions of subpara. 4-7 shall apply accordingly to the recognition of the value of securities posted by a clearing member as a contribution to the OTC guarantee fund.

§ 82

1. The initial margin shall be posted by a clearing member for transactions which are to be cleared in the OTC clearing system according to the contents of the clearing instruction.
 - 1a. An initial margin may only be used to meet obligations arising from positions registered in clearing accounts which have been assigned to a collateral account in which the margin is registered unless assets posted as the margin are registered in a collateral account linked to an own position account.
 - 1b. The amount of the initial margin requirement shall be determined by KDPW_CCP at a level not lower than the level resulting from calculations based on estimated volatility in the historical

lookback period of 10 years.

2. The value of the initial margin required from a participant shall be calculated according to the risk of transactions, allowing for a reduction in risk as a result of the relevant correlation between derivative instruments or repo transactions and sale transactions, respectively.

3. The obligations of a participant in respect of initial margins shall be updated daily on the days when KDPW_CCP performs the clearing of transactions.

4. Securities may be posted as part of the initial margin up to 60% of its required value. Cash deposited in EUR may be credited as part of the initial margin up to 100% of its required value. In certain circumstances justified in order to protect the safety of transaction clearing, the Management Board of KDPW_CCP may lower these ratios for a limited period by means of a resolution.

5. In case of a significant downgrade of the credit rating of a participant or receipt of reliable information about events which could soon cause it, or in case of a participant's non-performance or undue performance of its obligations arising from the participation agreement, the Management Board of KDPW_CCP may, on giving prior notice to the participant, adopt a resolution increasing for a limited period, no longer than three months, the amount of the participant's obligations in respect of initial margins calculated on the basis of a ratio set in the resolution. The period of increased obligations in respect of margins calculated for the clearing member may be extended for another limited period, no longer than three months, if the situation referred to in the preceding sentence persists.

6. In case of an abrupt occurrence of significant volatility of market parameters (prices, interest rates or exchange rates) or receipt of reliable information about events which could soon cause it, the Management Board of KDPW_CCP may, on giving prior notice to participants, adopt a resolution increasing for a limited period, no longer than one month, the amount of obligations in respect of margins calculated for all clearing members on the basis of a ratio set in the resolution. The period of increased obligations in respect of margins calculated for all clearing members may be extended for another limited period, no longer than one month, if the situation referred to in the preceding sentence persists.

§ 82a

Where assets posted as an initial margin are registered in a collateral account linked to a clearing account maintained in order to register positions arising from transactions executed by an entity acting with the participation type of non-clearing member, that entity shall be entitled to receive such assets or to have them transferred to another clearing member together with positions registered in such clearing account in the events described in § 110a - § 110c within the scope defined therein.

§ 83

1. The initial deposit shall be posted by a clearing member for transactions which are to be cleared in the OTC clearing system according to the contents of the clearing instruction.

2. An initial deposit is first posted by a clearing member before starting operation in the clearing system in the amount set by the Management Board of KDPW_CCP in a resolution (minimum amount of initial deposit). After the clearing member starts operation in the system, the amount of the required initial deposit is determined according to the provisions of the Detailed Rules of the OTC Clearing System, and shall not be lower than the minimum amount of initial deposit.

3. Securities and cash in EUR may form part of an initial deposit up to the level of 100% of its value. In certain circumstances justified in order to protect the safety of transaction clearing, the Management Board of KDPW_CCP may lower these ratios for a limited period by means of a resolution.

4. A surplus referred to in § 75 subpara. 2 shall constitute financial collateral posted as an initial deposit as of the date of posting according to the regulations governing a different clearing system operated by KDPW_CCP to the relevant account managed for KDPW_CCP.

§ 84

[repealed]

§ 85

1. KDPW_CCP shall organise and manage the OTC guarantee fund.

2. Once an entity obtains participation of a type associated with the status of clearing member, it shall become a participant of the OTC guarantee fund.

3. Contributions to the OTC guarantee fund shall be paid in by clearing members. The detailed rules of formation and use of the OTC guarantee fund in matters not regulated herein are set out in Appendix 2 to these rules.

4. Contributions to the OTC guarantee fund shall be calculated by KDPW_CCP in the Polish currency.

5. Assets of the OTC guarantee fund shall be used in cases referred to in Section 6 “Use of the Assets of the Transaction Clearing Liquidity Guarantee System” and in case of occurrence of an event of default which justifies immediate termination of the agreement.

§ 86

1. In instances where collateral referred to in this Section is posted in the form of securities, KDPW_CCP shall have the right to dispose of such securities according to the purpose which the collateral serves from the moment when the securities are first posted as collateral. Securities shall be deposited as an initial margin or an initial deposit by means of their transfer, respectively, to:

1/ for securities referred to in § 79 subpara. 3 point 1-3 - the securities account maintained for KDPW_CCP by the Central Securities Depository of Poland,

2/ for securities referred to in § 79 subpara. 3 point 4 – the securities account maintained for KDPW_CCP in the relevant depository system for such securities, indicated by the Management Board of KDPW_CCP in a resolution,

no later than the time limit set in the Detailed Rules of the OTC Clearing System. Upon such transfer, KDPW_CCP and the clearing member depositing the margin shall enter into an agreement of transfer of ownership of such securities to KDPW_CCP in order to secure the performance by the participant of obligations which may be performed by means of the margin according to the rules and to cover the cost of such performance, subject to subpara. 2 and 3.

2. In the event that collateral consists of securities referred to in § 79 subpara. 3 point 4:

1/ the agreement referred to in subpara. 1, the establishment and expiration of collateral in such securities, and the enforcement of such collateral shall be governed by the applicable legal provisions of the state where the securities account referred to in subpara. 1 point 2 is managed. KDPW_CCP shall indicate, in the Detailed Rules of the OTC Clearing System, the state where such securities account is managed,

2/ each margin consisting in such securities shall be financial collateral established under title transfer financial collateral arrangements referred to in Art. 1 subpara. 1 item (b) of Directive 2002/47/EC of the European Parliament and of the Council of 6 June 2002 on financial collateral arrangements,

3/ KDPW_CCP may make the establishment or release of such collateral dependent on additional actions to be taken by the participant, as indicated in the Detailed Rules of the OTC Clearing System, in order to meet the conditions necessary, according to applicable legal provisions, referred to in point 1, to conclude the agreement referred to in subpara. 1, and to make the collateral effective for third parties and to enforce it in cases referred to in the rules. In this case, the conclusion of the agreement referred to in subpara. 1 may take place provided that the participant has performed such actions,

4/ subject to subpara. 3, collateral shall be established in such securities at the instant of their transfer from the securities account managed in the system in which such securities are registered to the account managed in such system for KDPW_CCP, unless the applicable legal provisions, referred to in point 1, require that such agreement should be concluded at a different, later time. In that case, the moment when the collateral is established under such applicable legal provisions shall be set by the Management Board of KDPW_CCP in a resolution,

5/ actions to establish and release such collateral may only be performed with the intermediation of an entity operating the relevant depository system for such securities, under an agreement concluded with such entity by KDPW_CCP, the participant or its collateral agent, respectively.

3. In instances referred to in § 70a and § 110b, collateral in securities shall be established in the manner defined therein, and the provisions of subpara. 2 and subpara. 3a shall apply accordingly.

3a. If a clearing member posting a margin for KDPW_CCP concludes an agreement with another entity in order to establish or release such collateral, it shall ensure that the agreement is not in conflict with the rules or resolutions of the KDPW_CCP Management Board issued under the rules.

4. KDPW_CCP shall perform the sale of assets in non-cash form that constitute margins if a need arises to use them for purposes described in the provisions of these rules.

5. A clearing member may only demand the release of collateral in whole or in part when the value of that participant's posted collateral exceeds the collateral required or in instances where it has posted equivalent collateral in alternative form in order to have the collateral released.

6. KDPW_CCP shall not dispose of securities posted as margins within the period that such securities are registered in a securities account maintained for KDPW_CCP otherwise than in order to establish collateral referred to in subpara. 4.

7. Subject to subpara. 8, payments received by KDPW_CCP in respect of entitlements from securities posted as margins and in respect of the redemption or cancellation of such securities by the issuer shall be transferred by KDPW_CCP to clearing members in an amount less of taxes due. If, however, a participant is in arrears with the performance of any cash obligations towards KDPW_CCP arising from its participation in the OTC clearing system or in a separate clearing system operated by KDPW_CCP for transactions executed in organised trading, KDPW_CCP may credit them towards such obligations instead of transferring them to the participant.

8. If an issuer redeems or cancels securities posted as margins, KDPW_CCP shall be entitled to use such payments in order to cause the performance of obligations of a participant arising from its status of clearing member, but such payments shall be credited in the first place towards a margin in respect of which the cancelled securities were posted, to the extent that the value of other assets

credited towards it is lower than the minimum margin or the margin requirement, respectively.

9. If financial collateral referred to in this Section is formed by securities referred to in § 79 subpara. 3 point 1-4, KDPW_CCP shall be entitled to request the clearing member that has posted such securities as initial margin or initial deposit to post, prior to the record date of entitlements from such securities, an equivalent collateral as required in order to enable the collateral posted in such securities to be released.

10. Subject to subpara. 2 point 5, the KDPW_CCP Management Board shall indicate, in a resolution, the detailed rules of posting securities as initial margins or initial deposits, as well as their return.

11. Any rights under the agreement referred to in subpara. 1 may only be assigned with the consent of KDPW_CCP.

§ 86a

1. Securities posted by a participant holding the status of clearing member in respect of margins or contributions to the OTC guarantee fund shall be included in the calculation of the value of margins or contributions to the OTC guarantee fund posted by the participant, provided that the values set by the Management Board of KDPW_CCP, hereinafter "concentration limits", are not breached.

2. Subject to subpara. 8, concentration limits shall be defined by KDPW_CCP for all securities credited towards margins and contributions to the OTC guarantee fund, and taking into account collateral in other clearing systems.

3. KDPW_CCP shall define, according to the applicable legislation, the following types of concentration limits:

- 1/ concentration limit for an individual issuer,
- 2/ concentration limit for a type of issuer,
- 3/ concentration limit for a type of asset,
- 4/ concentration limit for a type of collateral,

and such limits are defined separately for, respectively, a given issuer, a given type of issuer, a given type of asset and a given type of collateral.

4. If securities posted by a participant holding the status of clearing member in respect of margins or contributions to the OTC guarantee fund should cause a breach of a concentration limit referred to in subpara. 3 point 1-4, respectively, such securities shall be credited towards such collateral up to the limit.

5. KDPW_CCP shall define, in a resolution, according to the applicable legislation and safety of trading, in particular ensuring adequate diversification of collateral, the values of the concentration limits referred to in subpara. 3 point 1-3. The value of the concentration limit for a type of collateral shall be defined only for securities designated in the list of securities referred to in § 80 subpara. 4 in the manner defined in § 82 subpara. 4 and § 83 subpara. 3 and in the OTC guarantee fund rules.

6. KDPW_CCP undertakes to ensure that the concentration limits applicable on a given day are not breached directly due to investments made on that day by KDPW_CCP or for KDPW_CCP by the Central Securities Depository of Poland with the own resources of KDPW_CCP and cash credited to margins and contributions to the OTC guarantee fund.

7. The concentration limit for a type of asset shall be defined only for shares included in the WIG20 index, designated in the list of securities referred to in § 80 subpara. 4, taking into account the breakdown into types of assets issued by entities referred to in subpara. 9 point 4-5.

8. The following concentration limits shall not apply to securities issued by the State Treasury, the National Bank of Poland and securities referred to in § 79 subpara. 3 point 4 issued by European Union Member States other than the Republic of Poland:

- 1/ concentration limit for an individual issuer,
- 2/ concentration limit for a type of issuer,
- 3/ concentration limit for a type of asset.

9. KDPW_CCP differentiates between the following groups of issuers of securities which may be deposited as collateral by participants, taking into account collateral in other clearing systems (type of issuer):

- 1/ the State Treasury,
- 2/ the National Bank of Poland,
- 3/ European Union Member States other than the Republic of Poland,
- 4/ banks and credit institutions which have issued securities designated in the list of securities referred to in § 80 subpara. 4, included in the WIG20 index,
- 5/ entities other than those described in point 4 which have issued securities designated in the list of securities referred to in § 80 subpara. 4, included in the WIG20 index, broken down by the entities' type of activity and place of establishment or management.

10. KDPW_CCP shall calculate, according to the applicable legislation and safety of trading, the following concentration levels, which shall be compared with the relevant concentration limits:

- 1/ concentration level for an individual issuer – for the concentration limit for an individual issuer,
- 2/ concentration level for a type of issuer – for the concentration limit for a type of issuer,
- 3/ concentration level for a type of asset – for the concentration limit for a type of asset,
- 4/ concentration level for a type of collateral – for the concentration limit for a type of collateral.

11. When calculating the concentration levels referred to in subpara. 10, KDPW_CCP shall take into account the value of its total exposure according to the applicable legislation, including assets available to KDPW_CCP, deposited in bank accounts maintained by third parties, invested in financial instruments and forward financial transactions, deposited as on-demand or term cash deposits, or otherwise invested, as well as the total amount of credit lines.

12. Subject to subpara. 16, the concentration level for an individual issuer shall be understood to mean the value determined by calculating the ratio of the value of securities, designated in the list of securities referred to in § 80 subpara. 4, issued by a given issuer or by an entity of the issuer's group of companies, within the meaning of Article 3 subpara. 1 point 44 of the Accountancy Act of 29 September 1994, credited at the day towards margins or contributions to the OTC guarantee fund, taking into account collateral in other clearing systems, and the value of other assets available to KDPW_CCP, included in the total exposure of KDPW_CCP to the issuer under the applicable legislation, in particular assets:

- 2/ invested in financial instruments issued by the issuer or forward financial transactions to which the issuer or an entity of the issuer's group of companies is a party, or
- 3/ deposited with the issuer or an entity of the issuer's group of companies as on-demand or term cash deposits, or
- 4/ otherwise invested for the issuer or an entity of the issuer's group of companies, or

13. The concentration level for a type of issuer shall be understood to mean the value determined for a type of issuer, referred to in subpara. 9 point 1-5, by calculating the ratio of the value of securities, designated in the list of securities referred to in § 80 subpara. 4, issued by the entities of the group of the type of issuer, credited at the day towards margins or contributions to the OTC guarantee fund, taking into account collateral in other clearing systems, and the value of other assets available to KDPW_CCP, included in the total exposure of KDPW_CCP to the type of issuer under the applicable legislation, in particular assets:

- 4/ otherwise invested for any of such issuers, or
- 5/ available as a credit granted by such issuers

to the value of all securities credited at the day towards margins or contributions to the OTC guarantee fund, taking into account collateral in other clearing systems, and the value of all assets available to KDPW_CCP, representing the total exposure of KDPW_CCP, including all credit lines granted to KDPW_CCP.

14. The concentration level for a type of asset shall be understood to mean the value determined by calculating the ratio of the value of securities referred to in subpara. 7, credited at the day towards margins, and the value of securities of the given type of asset available to KDPW_CCP, to the value of all securities credited at the day towards margins and contributions to the OTC guarantee fund, taking into account collateral in other clearing systems, and the value of all securities available to KDPW_CCP, representing the total exposure of KDPW_CCP under securities.

15. The concentration level for a type of collateral shall be understood as the value determined by calculating the ratio of the value of securities deposited as margins and contributions to the OTC guarantee fund to the value of margin requirements and required contributions to the OTC guarantee fund, calculated separately for each clearing member.

16. Whenever securities issued by an entity referred to in subpara. 12 or an entity of the same group of companies are referred to in subpara. 12, this shall be understood to mean also securities which have not been issued by that entity or an entity of the same group of companies if that entity has granted a guarantee or surety to perform obligations arising from such securities.

§ 86b

1. A clearing member that intends to post assets as margins or a contributions to the OTC guarantee fund on a given day shall be entitled to request KDPW_CCP for information whether or not such assets will be credited towards such margins or contributions to the OTC guarantee fund on that day but no later than within 30 minutes from the delivery of such information to the participant.

2. KDPW_CCP shall immediately provide information to the participant that has made a request referred to in subpara. 1.

§ 86c

1. If assets deposited as margins or contributions to the OTC guarantee fund in a currency other than the currency required for the settlement of transactions need to be used in accordance with the provisions of Sections 5 and 6, KDPW_CCP may convert such currency at the market rate on the day of the conversion.
2. If any assets which have been converted remain to be returned after the actions referred to in the provisions of Sections 5 and 6, KDPW_CCP may return such assets in the converted currency which was required for the settlement of transactions.
3. In the event of sale of securities which form financial collateral referred to in this Section by KDPW_CCP in accordance with the purpose of such collateral, redemption or cancellation of such securities by the issuer, the provisions of subpara. 1 and 2 shall apply accordingly to assets received as a result of such sale, redemption or cancellation, respectively.

**SECTION 3
RISK MONITORING****§ 87**

1. KDPW_CCP shall monitor risks arising from transactions accepted for clearing among others by means of:
 - 1/ setting of a collateral limit for each clearing member,
 - 2/ on-going monitoring of positions for each clearing member to ensure that its limit referred to in subpara. 1 is not breached,
 - 3/ on-going monitoring of the value of margins posted by the participant and the value of contributions to the OTC guarantee fund,
 - 4/ on-going monitoring of the concentration level.
2. KDPW_CCP shall calculate, on the days when transaction clearing is performed, according to the Detailed Rules of the OTC Clearing System, the current value of obligations arising from transactions accepted for clearing for which a given participant is liable. The value shall be included in the verification of breach of the collateral limit.
3. If KDPW_CCP finds during a clearing session that the current value of obligations arising from transactions accepted for clearing exceeds the collateral limit set for a clearing member, KDPW_CCP may call on such participant to eliminate the breach immediately, no later than within 60 minutes after the participant becomes aware of the limit being exceeded. If the participant fails to eliminate the breach within such time limit, KDPW_CCP may refuse further acceptance for clearing of transactions of which the participant is a clearing counterparty, and take actions according to § 104.
4. Subject to subpara. 5 and 7, if the collateral limit set for the clearing member which is a clearing counterparty to a transaction would be breached as a result of the transaction sent for clearing to the OTC clearing system being accepted for clearing in the system, KDPW_CCP shall refuse its acceptance in the system and notify the clearing member of its non-acceptance due to the breach of the collateral limit, including the amount of required collateral. In that case, KDPW_CCP shall once again verify the terms of acceptance of the transaction in the OTC clearing system if, before the end of the clearing session at which the transaction was sent to the system, the participant adjusts the margin to the required amount or a transaction referred to in subpara. 7 is sent to and accepted in the system.

5. Subject to subpara. 7, if KDPW_CCP refuses the acceptance of the transaction referred to in subpara. 4 in the OTC clearing system and then further transactions of which the same clearing member is a clearing counterparty are sent to the system during the clearing session at which the transaction was sent to the system:

1/ the provisions of subpara. 4 shall apply accordingly to such transactions, where KDPW_CCP shall include the transaction referred to in subpara. 4 and each subsequent transaction not accepted in the system in the verification of breach of the collateral limit for each such transaction,

2/ as a condition of acceptance of all such transactions, including the transaction referred to in subpara. 4, in the system, the margin shall be adjusted in the amount required for all such transactions or the transaction referred to in subpara. 7 shall be sent to and accepted in the system.

6. The transaction referred to in subpara. 4 and subsequent transactions sent to the system, referred to in subpara. 5, shall be accepted in the system at the instant that KDPW_CCP ascertains, before the end of the clearing session at which they were sent to the system, that actions referred to in subpara 4, 5 and 7 have been performed as necessary to prevent breach of the collateral for all such transactions. In that case, KDPW_CCP shall immediately send to the participant information confirming that each such transaction has been registered in the clearing account, including the time of registration.

7. After refusal of acceptance of the transaction referred to in subpara. 4 in the system, KDPW_CCP shall accept any further transaction of which the same clearing member is a clearing counterparty in the system only if its acceptance would restore the level of utilisation of the collateral limit set for the clearing member and enable positive verification of all transactions which were not accepted in the system due to the breach of the collateral limit. While accepting such transaction in the system, KDPW_CCP shall also take the actions referred to in subpara. 6.

8. If the value of a position concerning a given class of derivative instruments which are registered in clearing accounts of a clearing member exceeds the concentration level, KDPW_CCP may call on the participant to eliminate the breach immediately, no later than within the time limit designated in the call, which shall be at least 5 days. Upon ineffective lapse of the time limit, KDPW_CCP may refuse further acceptance for clearing of transactions of which the participant is a clearing counterparty, and take actions according to § 104.

§ 88

1. A clearing member who concludes transactions or represents in clearing another entity which concludes transactions shall be obliged to adjust the margins in the relevant amount prior to the conclusion by itself or by such entity of transactions which would cause the collateral limit to be exceeded if sent for clearing in the OTC clearing system.

2. A clearing member shall be obliged to maintain a relevant collateral system within which it shall in particular perform on-going monitoring of risks arising as a result of transactions concluded by itself or by entities which it represents in clearing performed by KDPW_CCP and as a result of submission of transaction orders to it by its clients and, depending on the results of such risk measurement, it shall accept necessary collateral from its clients and such entities.

§ 89

1. A clearing member holding depository accounts maintained in the settlement system relevant for the performance of settlement of transactions concluded by it shall be obliged to enable within such

system transfers of securities concerned by a transaction from its securities accounts to its clients' securities accounts to the extent necessary to perform obligations arising from the clearing of transactions concluded by it by order of clients.

2. The obligation referred to in subpara. 1 shall arise on the condition that the relevant settlement system uses the mechanism referred to in subpara. 1.

SECTION 4

SERVICE OF CLOSING POSITIONS ON DEMAND

§ 90

1. The service of closing positions on demand shall be organised in order to ensure the execution of cash payments arising from the clearing of derivative transactions, in particular to avoid the necessity of using margins due to lack of coverage in the bank account maintained by the relevant clearing bank for a clearing member or the payment agent designated by it.

2. The service referred to in subpara. 1 shall involve KDPW_CCP matching parties to a transaction for the opposite position on the terms set out herein in order to close the position of one party, this being a position opposite to the transaction.

3. The service referred to in subpara. 1 shall be initiated by a clearing member where it identifies the need to close a position registered in the clearing account maintained for it in order to ensure proper performance of its obligations arising from the performance of obligations of a clearing member and in particular where it concludes that the relevant bank account maintained for it or for a payment agent designated by it may have a lack of coverage preventing the proper execution of cash payments arising from the clearing of the positions being closed.

§ 91

1. The service of closing positions on demand shall be performed by KDPW_CCP for derivative transactions of clearing members who, by submitting a written declaration to that effect according to the model set out by KDPW_CCP, have consented to participate in the service and authorised KDPW_CCP to take actions described in § 92 subpara. 3-4 and to receive on their behalf declarations of will submitted as part of the service.

2. Participation in the service referred to in subpara. 1 shall be voluntary.

3. Participation in the service referred to in subpara. 1 shall mean that, on the terms set out in the rules, a clearing member may submit, through the agency of KDPW_CCP, to other clearing members participating in the service, position opening proposals and offers to conclude a transaction for the opposite position.

4. Clearing members participating in the service referred to in subpara. 1 may act on their own account or on account of another person.

5. KDPW_CCP shall ensure mutual anonymity of parties in the service referred to in subpara. 1.

§ 92

1. A clearing member may request KDPW_CCP to provide the service of closing positions which have been opened in clearing accounts maintained for it by sending an instruction with a position opening proposal for that purpose.

2. A position opening proposal shall be deemed to be effectively submitted in the OTC clearing

system once KDPW_CCP confirms its acceptance.

3. Upon acceptance of a position opening proposal, KDPW_CCP shall make it available to other clearing members participating in the service of closing positions on demand. KDPW_CCP shall be entitled to limit the number of clearing members to which it sends the position opening proposal on the terms set out in the Detailed Rules of the OTC Clearing System.

4. In response to a position opening proposal, a clearing member receiving the proposal shall send an offer to conclude a transaction for the opposite position through the agency of KDPW_CCP.

5. If the clearing member receiving the offer to conclude a transaction for the opposite position accepts its terms, it shall send to KDPW_CCP an instruction confirming acceptance of the offer. Delivery of an instruction to KDPW_CCP shall mean at the same time that the transaction for the opposite position is sent by the parties for clearing.

6. The transaction for the opposite position shall be concluded once KDPW_CCP has received the instruction referred to in subpara. 5. KDPW_CCP shall immediately send confirmation of conclusion of the transaction to its parties.

§ 93

1. The Management Board of KDPW_CCP shall designate in the Detailed Rules of the OTC Clearing System such information as should be contained in a position opening proposal and in an offer to conclude a transaction for the opposite position, subject to the following:

1/ the price of an offer to conclude a transaction for the opposite position shall follow from the contents of the offer determined on the terms set out in the Detailed Rules of the OTC Clearing System,

2/ the settlement date of the cash payment arising from the clearing of the transaction for the opposite position shall not be later than the time limit set out in the Detailed Rules of the OTC Clearing System running from the time of conclusion of the transaction,

3/ the derivative instrument concerned by the transaction for the opposite position shall correspond to the kind and parameters of the derivative instrument concerned by the position to be closed.

2. The detailed terms and procedures of delivering a position opening proposal and an offer to conclude a transaction for the opposite position are set out in the Detailed Rules of the OTC Clearing System.

§ 94

1. Upon the receipt by KDPW_CCP of an instruction confirming the conclusion of the transaction for the opposite position, KDPW_CCP shall accept the transaction for clearing and register in clearing accounts the opening of a position for the transaction and then cancel the position according to § 61.

2. A position opening proposal and an offer to conclude a transaction for the opposite position may be withdrawn only by means of submitting, respectively, a new position opening proposal or a new offer to conclude a transaction for the opposite position, but no later than the time of delivery of the instruction confirming acceptance of the offer to KDPW_CCP.

§ 95

1. KDPW_CCP may suspend the performance of actions for a clearing member in the service of closing positions on demand if KDPW_CCP finds that the conclusion of the transaction for the opposite position will cause the collateral limit set for the participant to be exceeded or the

concentration level to be exceeded.

2. KDPW_CCP shall be entitled to suspend the performance of actions in the service of closing positions on demand in cases described in § 48.

SECTION 5 OPERATION OF AUTOMATIC CLOSING OF POSITIONS

§ 96

1. The operation of automatic closing of positions shall be organised in case of immediate termination of a participation agreement concluded with a defaulting participant in order to ensure the execution of cash payments arising from the clearing of affected transactions. Participation in the operation shall be mandatory for all clearing members receiving a position opening proposal referred to in § 97 subpara. 1.

2. The operation referred to in subpara. 1 shall involve KDPW_CCP concluding a transaction for the opposite position which corresponds to the position or positions of the defaulting member being closed and closing the position or positions in case of occurrence of an event of default. Positions shall be closed according to in § 104 subpara. 3.

3. The operation referred to in subpara. 1 shall be initiated by KDPW_CCP in case of termination of transactions created as a result of novation between KDPW_CCP and a defaulting participant and closing of positions registered in clearing accounts maintained for the participant.

4. KDPW_CCP shall perform the operation referred to in subpara. 1 with due diligence justified by market conditions prevailing on the date of the operation.

§ 97

1. KDPW_CCP shall perform the operation of automatic closing of positions registered in clearing accounts maintained for the defaulting participant by sending to the other clearing members an instruction with a position opening proposal for that purpose concerning a position corresponding to the position or positions of the defaulting member being closed. KDPW_CCP shall be entitled to limit the number of clearing members to which it sends the position opening proposal on the terms set out in the Detailed Rules of the OTC Clearing System.

2. Every clearing member receiving a position opening proposal shall be obliged, under the terms set out in the rules and the Detailed Rules of the OTC Clearing System, to submit to KDPW_CCP an offer to conclude a transaction for the opposite position. Delivery of an offer to conclude a transaction for the opposite position by a clearing member shall mean at the same time that the clearing member consents that the transaction is sent for clearing in the OTC clearing system and accepts the consequences referred to in subpara. 4. In response to a position opening proposal, the clearing member receiving the proposal shall send an offer to conclude a transaction for the opposite position through the agency of KDPW_CCP.

3. If KDPW_CCP accepts the terms of an offer to conclude a transaction for the opposite position, it shall send to the clearing member an instruction confirming the conclusion of the transaction and at the same time register the transaction for the opposite position in the OTC clearing system.

4. The transaction for the opposite position shall be concluded once it is registered in the OTC clearing system.

§ 98

1. The Management Board of KDPW_CCP shall designate in the Detailed Rules of the OTC Clearing System such information as should be contained in a position opening proposal and in an offer to conclude a transaction for the opposite position, subject to the following:

1/ the price of the offer to conclude a transaction for the opposite position shall follow from the contents of the offer determined on the terms set out in the Detailed Rules of the OTC Clearing System,

2/ the settlement date of the cash payment arising from the clearing of the transaction for the opposite position shall not be later than the time limit set out in the Detailed Rules of the OTC Clearing System running from the time of conclusion of the transaction,

3/ the derivative instrument or securities concerned by the transaction for the opposite position shall correspond to the kind and parameters of the derivative instrument or securities, respectively, concerned by the affected transaction.

2. The detailed terms and procedures of delivering a position opening proposal and an offer to conclude a transaction for the opposite position are set out in the Detailed Rules of the OTC Clearing System.

§ 99

KDPW_CCP shall be entitled to suspend the performance of actions in the operation of automatic closing of positions without stating its reasons.

§ 99a

1. The defaulting participant shall repay the cost of the operation of automatic closing of positions incurred in favour of third parties (commissions, transaction and banking fees) in connection with actions taken according to the rules and the Detailed Rules of the OTC Clearing System.

2. After performing the operation of automatic closing of positions, KDPW_CCP shall document, on written request of the defaulting participant, all incurred costs referred to in subpara. 1.

3. The cost of the operation of automatic closing of positions shall be covered with margins posted by the defaulting participant and if these prove insufficient – from the resources of the OTC guarantee fund and from the own resources of KDPW_CCP in the amount and sequence laid down in § 101 subpara. 2 and § 102 subpara. 2.

SECTION 6**USE OF THE ASSETS OF THE TRANSACTION CLEARING LIQUIDITY GUARANTEE SYSTEM**

§ 100

1. Where the clearing of a repo transaction or sale transaction performed in the relevant settlement system on the basis of an instruction of KDPW_CCP has been suspended due to a lack of coverage in the bank account of the clearing member or the payment agent designated by it maintained in the relevant clearing bank or in TARGET2, KDPW_CCP shall submit settlement orders for the transactions to be settled following the suspension in such a way that the outstanding obligations of the participant can be performed using its cash credits arising from such transactions. In that case, the credits shall be netted against the outstanding obligations of the participant.

2. If a settlement order submitted to the relevant payment system in order to make a cash payment

arising from the clearing of a derivative transaction or a transfer order delivered according to the agreement with the relevant clearing bank for that purpose has not been executed in due time due to a lack of coverage in the bank account of the participant or the payment agent designated by it maintained in the relevant clearing bank or in TARGET2, the provisions of subpara. 1 shall apply accordingly.

§ 101

1. Where the credits due to a participant referred to in § 100 subpara. 1 are insufficient to eliminate the suspension of transaction settlement caused by the participant, KDPW_CCP shall, immediately after being notified of the suspension of such settlement by the entity which operates the settlement system, identify occurrence of an event of default and subsequently, take actions necessary to sell securities concerned by the transaction and to perform the settlement of the affected transaction in favour of a participant affected by default by concluding a repo transaction whose position is opposite to the transaction whose settlement has been suspended or a sale of such securities. The defaulting participant may not require KDPW_CCP to make payments arising from the contents of an instruction submitted by KDPW_CCP to the relevant settlement system in order to perform the settlement of the transaction which has been suspended due to circumstances for which such participant is responsible.

2. Subject to subpara. 3, differences in prices of securities, if any, between the sale made according to subpara. 1 and the transaction whose settlement has been suspended, including transaction costs, shall inure to KDPW_CCP if positive, and, if negative, they shall be covered with margins posted by the defaulting participant and subsequently:

- 1/ the contribution paid in by the participant to the OTC guarantee fund,
- 2/ the dedicated resources in the amount calculated according to § 78a subpara. 2 and 3, and once these assets are exhausted,
- 3/ the remaining assets of the OTC guarantee fund.

3. To the extent that the cost of concluding a sale of securities concerned by the transaction has been covered with the assets of the OTC guarantee fund, positive differences of prices of securities referred to in subpara. 2 shall be credited to the assets of the fund.

4. If margins posted by the defaulting participant must be used according to subpara. 1 and 2, such margins shall be used in the following order, where KDPW_CCP reserves the option of using the assets in another order:

- 1/ initial deposit, and then
- 2/ initial margin.

§ 102

1. Where the participant referred to in § 100 subpara. 2 fails to ensure, on the day when its cash obligations arising from the clearing of transactions are due to be performed, coverage in the relevant bank account maintained by the relevant clearing bank or in TARGET2, necessary to perform in due time, respectively, a settlement order in the relevant payment system, including a system that is a part of TARGET2, or a transfer order in the relevant clearing bank or in TARGET2, KDPW_CCP shall, on that day, take actions necessary to make the cash payment arising from the clearing of a derivative transaction to the participant affected by default. The provisions of § 101 subpara. 1 second sentence and subpara. 4 shall apply accordingly.

2. Where margins posted by the defaulting member referred to in subpara. 1 prove insufficient, its cash obligations shall be performed in the following order:

- 1/ the contribution paid in by the participant to the OTC guarantee fund,
- 2/ the dedicated resources in the amount calculated according to § 78a subpara. 2 and 3, and once these assets are exhausted
- 3/ the remaining assets of the OTC guarantee fund.

3. KDPW_CCP shall not be liable to the extent that the cash obligations of the defaulting participant have been performed using margins and the assets of the OTC guarantee fund.

§ 103

1. Where actions taken by KDPW_CCP as referred to in § 101 subpara. 1 do not result, within five days from initiating them, in the sale of all securities concerned by the transaction whose settlement has been suspended, or where such actions cannot be taken within that time limit for reasons beyond the control of KDPW_CCP, the Management Board of KDPW_CCP guided by the safety and liquidity of clearing shall decide, by way of a resolution, not to take or to discontinue such actions and to make a replacement payment to the participant affected by default in the amount of the difference between the value of such securities which have not been sold arising from the affected transaction whose settlement has been suspended and their market value calculated according to § 78 as at the date of such payment made by KDPW_CCP. A replacement entitlement shall be paid in the currency of transaction settlement.

2. To make the cash payment referred to in subpara. 1, KDPW_CCP shall use margins, contributions paid in to the OTC guarantee fund and own assets of KDPW_CCP, in the order and in the amount set out in § 101 subpara. 2 and 4.

3. The cash payment referred to in subpara. 1 shall relieve KDPW_CCP from all obligations to the participant affected by default arising from the affected transaction.

§ 104

1. If a clearing member breaches the collateral limit and fails to eliminate such breach within the time limit referred to in § 87 subpara. 3, KDPW_CCP may close all positions of such participant.

2. Positions referred to in subpara. 1 shall be closed in the operation of automatic closing of positions.

3. Positions referred to in subpara. 1 shall be closed with assets posted by the participant as margins. The provisions of § 101 subpara. 4 shall apply accordingly. Where such assets prove insufficient, such positions shall be closed with assets contributed to the OTC guarantee fund and own assets of KDPW_CCP in the order and in the amount set out in § 102 subpara. 2. Where these assets are also insufficient, the positions shall be closed according to § 108 a subpara. 1 and § 109 subpara. 1-3.

§ 105

1. Where the settlement of a repo transaction or sale transaction performed in the relevant settlement system on the basis of an instruction of KDPW_CCP has been suspended due to the lack of securities concerned by the transaction and the suspension of such settlement persists, on the next day following the due date of settlement KDPW_CCP shall identify suspension of transaction settlement and take actions on the account of the participant necessary to buy securities, respectively, by concluding a repo transaction whose position is opposite to the transaction whose

settlement has been suspended or a purchase of such securities. In cases justified by special circumstances and in particular the safety of performed clearing, KDPW_CCP may take such action earlier.

2. Where the clearing member fails to ensure cash necessary for KDPW_CCP to purchase securities required to eliminate the suspension of transaction settlement, KDPW_CCP shall submit settlement orders for the transactions to be settled following the suspension to the relevant settlement system in such a way that the purchase can be financed with cash credits of the participant arising from such transactions. In that case, the credits shall be netted against the obligations of the participant to cover the cost of purchase of securities.

3. To the extent that the cash credits of the defaulting participant are insufficient to purchase securities necessary to eliminate the suspension of settlement, their purchase shall be financed with margins posted by the participant. The provisions of § 101 subpara. 4 shall apply accordingly.

4. Where cash credits of the defaulting participant and margins posted by the defaulting participant do not allow for the purchase of securities in a number necessary to eliminate the suspension of settlement of the repo transaction or sale transaction, the purchase of securities concerned by the transaction whose settlement has been suspended shall be financed also with the assets of the OTC guarantee fund and own assets of KDPW_CCP, in the order and in the amount set out in § 101 subpara. 2.

5. Positive differences in prices of securities, if any, between the repo transaction whose settlement has been suspended and the purchase made according to the provisions of the subpara. above shall inure to KDPW_CCP. However, to the extent that the purchase of securities concerned by the transaction has been financed with the assets of the OTC guarantee fund, positive differences in prices of securities referred to in the preceding sentence shall be credited to the assets of the fund.

6. On the identification of an event of default by KDPW_CCP, as referred to in subpara. 1, the defaulting participant may not require KDPW_CCP to make payments arising from the contents of an instruction submitted by KDPW_CCP to the relevant settlement system in order to perform the settlement of the transaction which has been suspended.

§ 106

1. Where actions taken by KDPW_CCP do not result, within five days from initiating them, in the purchase of all securities concerned by the transaction in a number necessary to eliminate the suspension of transaction settlement, or where such actions cannot be taken within that time limit for reasons beyond the control of KDPW_CCP, the Management Board of KDPW_CCP guided by the safety and liquidity of clearing shall decide, by way of a resolution, not to take or to discontinue such actions and to make a replacement payment to the participant affected by default in the amount of the difference between the market value of such securities which have not been purchased calculated according to § 78 as at the date of such payment made by KDPW_CCP and their price arising from the affected transaction whose settlement has been suspended. A replacement entitlement shall be paid in the currency of transaction settlement.

2. The resolution referred to in subpara. 1 shall also be adopted in case of lack or significant limitation of the possibility of purchasing securities concerned by the transaction whose lack caused the suspension of settlement of a repo transaction or sale transaction. Lack or significant limitation of the possibility of purchasing securities concerned by the transaction shall be understood to mean in particular a situation where rights attached to such securities have expired or changed after the due

date of settlement of the repo transaction and a situation where securities have been deregistered from the securities depository maintained by the Central Securities Depository of Poland.

3. To make the cash payment referred to in subpara. 1, KDPW_CCP shall use margins posted by the defaulting member and, subsequently, the assets of the OTC guarantee fund and own assets of KDPW_CCP, in the order and in the amount set out in § 101 subpara. 2 and 4.

4. The cash payment referred to in subpara. 1 shall relieve KDPW_CCP from all obligations to the participant affected by default arising from the affected transaction.

§ 107

1. In case of non-performance or undue performance of the obligations of a clearing member obliged to post margins and pay in a contribution to the OTC guarantee fund or make a payment arising from the marking to market, KDPW_CCP shall identify occurrence of an event of default and begin to close positions registered in clearing accounts maintained for the participant, using margins for that purpose. The provisions of § 101 subpara. 4 shall apply accordingly.

2. Where the assets referred to in subpara. 1 prove insufficient, such positions shall be closed with assets contributed to the OTC guarantee fund and own assets of KDPW_CCP in the order and in the amount set out in § 102 subpara. 2 and 4. Where these assets are also insufficient, the positions shall be closed according to § 109 subpara. 1-3 accordingly.

3. To the extent that positions have been closed using own assets of KDPW_CCP, KDPW_CCP shall be entitled to claim reimbursement of the expensed assets from the defaulting participant.

§ 108

1. Where the settlement of a repo transaction or sale transaction ("affected transaction A") is suspended in the relevant settlement system due to KDPW_CCP failing to make a payment arising from the transaction as a result of failure of a defaulting member to make to KDPW_CCP a payment with the same title and in the same amount under another repo transaction or sale transaction ("transaction B") whose settlement has also been suspended, the payment arising from affected transaction A shall be made by KDPW_CCP on the day when the suspension of settlement of transaction B is eliminated.
